

Improve Mobile Phone use with the 2 ear advantage

Whether walking on a busy street or driving in a car, ConnectLine Streamer can transmit mobile phone audio wirelessly and clearly into both hearing instruments simultaneously.

Not only will you be able to use a mobile phone effortlessly, you will also be able to do so hands free while driving.

What is ConnectLine™?

ConnectLine is a range of devices to help you connect your hearing instruments wirelessly to mobile phones, landline phones and TV's—in fact, with any Bluetooth™ device. With ConnectLine, your hearing instruments become a personal wireless headset.

If your Oticon hearing instrument has wireless connectivity, you can use ConnectLine.

PEOPLE FIRST

We believe that it takes more than technology and audiology to create the best hearing instruments. That's why we put the individual needs and wishes of people with hearing loss first in our development of new hearing care solutions.

ConnectLine™

Turn your hearing instruments into a fully integrated hearing system.

Streamer— the heart of ConnectLine

Streamer is the gateway between your hearing instruments and a whole world of Bluetooth™ devices.

Streamer:

- Converts Bluetooth signals into a wireless signal used by your hearing instruments
- Improves phone communication allowing you to hear the conversation with both ears
- Acts as a remote control for your hearing instruments
- Switches between home, mobile, and TV without the need to reconnect
- Connects up to 8 devices – including MP3 players, computers etc.
- Provides an energy efficient system - does not increase the battery drain on the hearing instruments
- Is easy to use.

Share a TV experience with the ConnectLine™ TV adaptor

Attractive and unobtrusive, this small adaptor transmits clear audio into your hearing instruments without the echo or lip synch problems of standard Bluetooth™ transmitters.

You will enjoy high quality sound with new freedom. So relax – hear the score, get the news and never miss a punch line. The ConnectLine TV adaptor has a range up to 10 metres.

With Streamer, you listen at your preferred volume while the family listens at theirs.

The ConnectLine™ Phone Adaptor

Answer the phone from your lounge chair - turns your landline phone into a wireless Bluetooth™ phone.

No need to replace your current phone. The small adaptor connects to your existing analog phone. The phone connects wirelessly to Streamer and it transmits up to 10 metres.

Enjoy hearing on the phone clearly through both ears hands free. No more running for the phone. No missed calls. No feedback worries.

ConnectLine™ will change how you feel about your hearing devices

ConnectLine helps you experience better connections in your life— with people, information and entertainment. By using ConnectLine you will get the most out of your hearing instruments with the ease and comfort you are looking for.

Feel more confident and relaxed as you begin to enjoy sound the way you remember it.
